SCIENTIFIC PROGRAM

Precision in motion: Shaping the future of endoscopic valve surgery

DAY 1 | SUNDAY, SEPTEMBER 13, 2026

10:00 – 12:00

Pre-meeting session: Next-generation MIC surgeons
Moderation: Höfer D

13:10 – 14:30

Session 1: Case-based learning: Aortic valve
Minimally invasive aortic valve surgery: How far should we push it?
Moderation: Gollmann-Tepeköylü C, Perier P

One case presenter and one surgeon from the same team present and comment on cases on a dialogue format. The case presenter shows the echo findings, the surgeon comments on the technique of repair. A Commentator provides theoretical knowledge on basic definitions

BLOCK 1: Transaxillary AVR (Team Ancona)	Case presenter tba	Surgeon Di Eusanio M	Echocardiography analyst (Whiteboard) Delgado V
	• Case 1: Transaxillary AVR with axillary cannulation • Case 2: Transaxillary root replacement		
BLOCK 2: Aortic stenosis + HOCM (Team Mainz)	Case presenter tba	Surgeon Treede H	Echocardiography analyst (Whiteboard) Delgado V
	• Case 1: Minimally invasive AVR with septal myectomy • Case 2: Minimally invasive AVR, septal myectomy and mitral valve treatment		
BLOCK 3: Aortic stenosis and small aortic annulus (Team Berlin)	Case presenter tba	Surgeon Kempfert J	Echocardiography analyst (Whiteboard) Delgado V
	• Case 1: Endoscopic root enlargement • Case 2: Endoscopic Y-annular enlargement		

SCIENTIFIC PROGRAM

Precision in motion: Shaping the future of endoscopic valve surgery

DAY 1 | SUNDAY, SEPTEMBER 13, 2026

14:30 – 16:00

Session 2: Mitral valve repair: Decision-making in challenging cases
Moderation: Kempfert J, Gollmann-Tepeköylü C

BLOCK 1: Complex mitral repair (Team Leipzig)	Case presenter Marin-Cuartas M	Surgeon Borger M	Echocardiography analyst (Whiteboard) Berrebi A
	• Case 1: Complex posterior leaflet pathology • Case 2: Valve analysis with an unexpected finding		
BLOCK 2: Bileaflet prolapse (Team Paris)	Case presenter tba	Surgeon Zannis K	Echocardiography analyst (Whiteboard) Berrebi A
	• Case 1: A case solved with a single ring • Case 2: OMG: I have to re-clamp!		
BLOCK 3: Anterior leaflet (Team Innsbruck)	Case presenter Winter-Pölzl L	Surgeon Bonaros N	Echocardiography analyst (Whiteboard) Berrebi A
	• Case 1: The fate of a repaired A2 prolapse • Case 2: An unusual A3 prolapse		

16:00 – 16:30

Coffee break

16:30 – 18:00

Session 3: Practice changing trials every cardiac surgeon must know 2025–2026
Moderation: Marin-Cuartas M, Färber G

- Endpoints matter: From composite outcomes to clinical reality
 - Aortic: Evolut Low risk 7-years results
 - Aortic: COMMENCE 10-years results
 - Mitral primary MR: PRIMARY, REPAIR-MR, Mitra-HR
 - Mitral secondary MR: REFORM-MR
- Borger M

Jeppsson A

Bleiziffer S

Gollmann-Tepeköylü C

Girdauskas E

SCIENTIFIC PROGRAM

Precision in motion: Shaping the future of endoscopic valve surgery

DAY 2 | MONDAY, SEPTEMBER 14, 2026

08:30 – 08:35	Welcome and opening		
08:35 – 08:50	The Ross procedure: Reclaiming the aortic valve <i>Vojacek J</i>		
08:50 – 09:05	Focus Valve-in-Valve <i>Bauer A</i>		
09:05 – 09:15	Case presentation from the OR		
09:15 – 12:00	Live surgery block 1 (Case presentation from the OR) Moderation: <i>Pomar J-L</i> Panel: <i>Zimpfer D, Wiedemann D, De Paulis R, Delgado V</i>		Echo from the OR: <i>tba</i> Whiteboard: <i>Färber G</i>
Live surgery 1: Transaxillary AVR using a tissue valve Surgeon: <i>Di Eusanio M</i> Learning points: Patient placement, transaxillary access, valve exposure and replacement Live surgery 2: 3D endoscopic double valve procedure (AVR+MVR) Surgeon: <i>Pitsis A</i> Learning points: Incision, port placement, mitral and aortic valve exposure, automated suturing			
10:00 – 10:30	Coffee break		
Presentations block: Endoscopic valve surgery: Core techniques for daily practice • Cannulation and cardioplegia – Getting the setup right • Endoaortic balloon – Safe and effective use • Surgical AF ablation – From tools to lines • The water test – How to read it right <i>D’Onofrio A</i> <i>Liebold A</i> <i>Castella M</i> <i>Müller L</i>			
12:00 – 13:00	Lunch break		
13:00 – 14:00	Robotics <i>Chair: Dreyfus G, Kempfert J</i>		
• New developments after 5 generations of robots • Robotic setting for mitral repair • The STS Expert consensus pathway for robotic cardiac surgery training <i>Bonatti J</i> <i>Palmen M</i> <i>Cerny S</i>			
14:00 – 14:30	Keynote lecture: Anterior leaflet prolapse: Still difficult – or just poorly understood?		

Dreyfus G

SCIENTIFIC PROGRAM

Precision in motion: Shaping the future of endoscopic valve surgery

DAY 2 | MONDAY, SEPTEMBER 14, 2026

14:30 – 18:00	Live surgery block 2 (Case presentation from the OR) <i>Moderation: Perier P</i> <i>Panel: Holfeld J, Grabenwöger M, Siepe M, Delgado V</i> Live surgery 3: Mini-Bentall using a tissue valve conduit Surgeon: <i>Grimm M</i> Learning points: Patient placement, root exposure, safe coronary buttons re-implantation Live surgery 4: 3D endoscopic repair in Barlow's disease Surgeon: <i>Höfer D</i> Learning points: Port placement, preparatory steps, Barlow's repair	Echo from the OR: tba Whiteboard: <i>Borger M</i>
---------------	--	--

16:00 – 16:30	Coffee break
---------------	--------------

Presentations block: Advanced endoscopic valve surgery - Mitral annular disjunction – A roadmap for surgeons - Premeasured loops – Sizing and getting it right - Beating heart tricuspid repair – A step-by-step approach - Bileaflet prolapse – How to make it simple	<i>De Paulis R</i> <i>Kofler M</i> <i>Siepe M</i> <i>Solinas M</i>
---	---

18:00	End of day 2
-------	--------------

SCIENTIFIC PROGRAM

Precision in motion: Shaping the future of endoscopic valve surgery

DAY 3 | TUESDAY, SEPTEMBER 15, 2026

08:30–08:35	ICU update	Surgeon on duty
08:35–08:50	The beginnings of endoscopic valve surgery – Breaking the sternotomy barrier Perier P	
08:50–09:00	Case presentations from the OR	
09:00–12:00	Live surgery block 3 Moderation: Reichenspurner H Panel: Zierer A, Schachner T, Palmen M, Berrebi A	Echo from the OR: tba Whiteboard: Treede H
	Live surgery 5: 3D endoscopic repair for PML prolapse Surgeon: Lakew F Learning points: Port placement, the snail-technique for repair	
	Live surgery 6: Robotic mitral repair Surgeon: Pereda D (broadcasted live from Barcelona) Learning points: Port placement, valve exposure, robotic repair using free-hand chords	
	Live surgery 7: 3D endoscopic repair in complex anatomy Surgeons: Gollmann-Tepeköylü C, Bonaros N Learning points: Step-by-step valve repair using pre-measured loops, identification	
10:00–10:30	Coffee break	
	Presentations block: Master course in endoscopic valve surgery - My best tricks to address major annular calcifications - My best tricks for redos in fibrillating heart - My best tricks for a mini-MVR in patients with hostile thorax - My best tricks for endoscopic mitral repair and biatrial ablation - The HOCM innovation: surgical percutaneous septal radiofrequency ablation	Benussi S Dzemali O Modi P Suwalski P Zhou R
12:00–13:00	Lunchbreak	
13:00–14:30	Atrial fibrillation: From stepchild to spotlight Moderation: Castella M, Benussi S	
	- How to detect silent AF (watches, ECG, ILR) - PFA ablation - New clamps for ablation - Anticoagulation after valve surgery: Are we overtreating or taking risks?	Reinstadler S Osorio E Heuts S Milojevic M

SCIENTIFIC PROGRAM

Precision in motion: Shaping the future of endoscopic valve surgery

DAY 3 | TUESDAY, SEPTEMBER 15, 2026

14:30 – 18:00	Live surgery block 4 (Case presentation from the OR) <i>Moderation: Alfieri O</i> Echo from the OR: tba <i>Panel: Andreas M, Castella M, Dahle G, Di Eusanio M, Berrebi A</i> Whiteboard: Andreas M Live surgery 8: Mini-mitral with concomitant endocardial ablation and LAA clipping Surgeon: Doll N Learning points: Access for MVR+Afib treatment, anatomy of ablation lines, safe LAA occlusion Live surgery 9: Endoscopic mitral and tricuspid repair in atrial secondary pathology Surgeon: Girdauskas E Learning points: Cannulation strategies, ring selection for atrial secondary MR/TR, tips for tethering
16:00 – 16:30	Coffee break Debate session: Part 1: Let's argue with facts: 5 slides to convince me Patient with primary MR, mild TR, annulus 40 - Do the tricuspid TBA - Forget the tricuspid Kofidis T Young patient with cardiomyopathy 37% EF and secondary ventricular MR - TEER with new generation devices Hausleiter J - Surgery with subvalvular techniques TBA Part 2: Let's be honest... <i>Moderation: Gollmann-Tepeköylü C</i> <i>Panel: Perier P, Pomar J-L, Alfieri O, Dreyfus G, Grimm M</i> Topic 1: Endoscopic valve surgery: Star surgeon or many players? Elite technique or daily practice? (Live Poll) Topic 2: Posterior leaflet repair 2035: the majority of surgeons will do... (Live poll) Mini Robotic Transaxillary Topic 3: The aortic valve will come back... (Live poll) Only without sternotomy It doesn't matter
18:00	End of day 3

HANDS ON WORKSHOPS

DAY 4 | WEDNESDAY, SEPTEMBER 16, 2026

09:00 – 13:00	Endoscopic mitral valve repair wetlab on porcine hearts (Group 1) <i>Tutors: tba</i>	<i>seminar room 2</i>
14:00 – 18:00	Endoscopic mitral valve repair wetlab on porcine hearts (Group 2) <i>Tutors: tba</i>	<i>seminar room 2</i>
08:30 – 16:30	Real-life Simulation of MICS AVR/MVR and Surgical & Transcatheter Biological Valve Explant <i>Tutors: tba</i>	<i>seminar room 3</i>
08:30 – 16:30	Hands-on Afib and LAA occlusion training <i>Tutors: tba</i>	<i>seminar room 1</i>

90 minutes & 4-5 participants per group – available timeslots:
Group 1: 08:30 – 10:00 Group 3: 13:00 – 14:30
Group 2: 10:30 – 12:00 Group 4: 15:00 – 16:30

REGISTRATION FEES 2026	before August 15	after August 15
DAY 1: Focus Valve Training Course	EUR 800	EUR 1 000
DAY 4: Endoscopic mitral valve repair wetlab on porcine hearts	EUR 400	EUR 500
DAY 4: Real-life Simulation of MICS AVR/MVR and Surgical & Transcatheter Biological Valve Explant	EUR 100	EUR 100
DAY 4: Hands-on Afib and LAA occlusion training	EUR 100	EUR 100
DAY 2: Meet & Greet – Social Evening September 24, 2026, Time: 19:30 Location: Restaurant Seegrube	EUR 70	EUR 70

 Looking for special offers? Find them on the next page!

REGISTRATION

ONLINE REGISTRATION: <https://registration.maw.co.at/valve26>

SPECIAL DISCOUNTS

For residents and nursing staff

Enjoy a 50% discount on the Focus Valve Training Course and all workshops.

For medical students

Register for just EUR 50 for the Focus Valve Training Course and/or the Wednesday workshops.
(Until August 31, 2026. EUR 100 thereafter.)

Combo discount – Simulation trainings

Participate in both the

Real-life simulation of MICS AVR / MVR and TAVI-explantation workshop and the
Hands-on Afib and LAA occlusion training

and receive a EUR 50 discount.

(Combined price: EUR 150)

Team / Group registration

Bring your team to Focus Valve and save up to 50% on registration and workshop fees!

Here's how it works:

1. **The first team member registers online via: <https://registration.maw.co.at/valve26>**
2. **After registering, they will receive a team code by email.**
3. **Share the code to register up to 5 team members.**

Team discount breakdown:

- 2nd team member – 30% discount
- 3rd to 5th team members – 50% discount each

Note: The team discount applies to a maximum of 5 members per team.

TRAVEL & HOTEL INFORMATION

Travel via Vienna

You can reach Innsbruck either via Vienna or Munich.

There are direct flights available between Vienna and Innsbruck (flight duration approx. 45 minutes).

Additionally, high-speed trains from Vienna Airport to Innsbruck Central Station are available (travel time approx. 4 hours and 15 minutes). From Innsbruck Central Station, the hotels we recommend are generally within a few minutes' walking distance.

Travel via Munich

If you're planning to travel between Munich and Innsbruck, here are the best options:

1. Lufthansa Express Bus (Direct and Non-stop)

You can travel directly between Munich Airport and Innsbruck Airport on the Lufthansa Express Bus.

The bus service operates daily and offers the following schedules:

From Munich Airport (Bus Stop 17) to Innsbruck Airport:

10:25 AM – 12:55 PM

3:00 PM – 5:30 PM

5:30 PM – 8:00 PM

9:30 PM – 11:55 PM

From Innsbruck Airport to Munich Airport (Bus Stop 17):

6:30 AM – 9:15 AM

10:00 AM – 12:30 PM

2:00 PM – 4:30 PM

6:15 PM – 8:45 PM

You may use the Lufthansa Express Bus even if you're not flying with Lufthansa, as long as you have a valid ticket purchased online. However, please note that if your flight (not part of the Lufthansa group) is delayed, your bus ticket may become invalid.

For more details and ticket bookings, visit the [Lufthansa Express Bus website](#).

2. FlixBus (Direct, but with 4 Stops)

FlixBus offers several daily connections between Munich and Innsbruck, though it is not a non-stop service.

The route includes 4 stops along the way.

Buses depart from Munich Airport Terminal 2 (Stops 21 and 22) and arrive at Innsbruck Hauptbahnhof (Main Railway Station).

When booking your FlixBus ticket, be sure to select Innsbruck Hauptbahnhof as your destination. The recommended hotels are a short walk from the main railway station, which is also close to the city center and the University Hospital.

For schedules and ticket booking, visit the [FlixBus website](#).

3. ÖBB (Austrian Federal Railways)

Another option is to travel by train with ÖBB (Austrian Federal Railways). This route requires at least one transfer, typically at Munich Ost station.

For detailed schedules and ticket bookings, visit the [ÖBB website](#).

RECOMMENDEND HOTELS

Hotels within walking distance to the venue (and the main train station) can be found online on our [hotel list](#).
